

Reproductive Health Working Group
APPLICATIONS FOR FUNDS FOR REGIONAL EXCHANGE

Criteria for Regional Exchange

Regional exchange funding is intended to support interaction between researchers in the region working on reproductive health, one of whom at least should be part of the RHWG (defined as having attended at least one, and preferably more annual meetings). The subject of the regional exchange could be methodological, conceptual or topic-oriented. It could involve one or more individuals traveling to a country in the region. There is no deadline for these requests which can come in at any time. These should be submitted to Jocelyn DeJong (dejongjocelyn@yahoo.com) with a cc to Ms. Noha Gaballah (ngaballah@rhwg.org).

Applications for funding for regional exchange activities should include the following:

- 1) A justification for the request – that is, why it is important to visit this particular place or institution and how this reason relates to reproductive health in the Arab countries and Turkey;
- 2) A scanned copy of an invitation letter from the inviting individual/institution;
- 3) The expected outcome of the regional exchange;
- 4) A budget for the regional exchange including travel, accommodation, meals and any transportation costs in-country. The visit can be of any duration, but please note that the maximum budget allowed per regional exchange visit is **\$5,700**.
